

Arkansas Network Adequacy Review & Regulation

Arkansas Insurance Department

Meeting Date: February 4, 2016

Meeting Preparatory Materials

1. AID has published the "Initial PY2017 Provider Type-NPI list" after having consolidated National Provider Identifier (NPI) Lists from various carriers. It is located in AID's webpage <http://rhld.insurance.arkansas.gov/Default/NetworkAdequacy> . This marks the end of Process#2.2 of Phase 1 as described in the spreadsheet "PY2017 NA Review Process" (available within the same webpage) and marks the start of Process#2.30 where the industry provides the first feedback in a two stage data quality improvement process.

The first feedback is through communication on what rows to delete and what to add towards the taxonomic definition and classification of providers. An edit/update is effected by pairs of deletes and adds for the same NPI number.

Please understand that this is not an opportunity to report on new NPI numbers that were not submitted through the earlier Phase 1 Process#2.10. However, an NPI that was reported in the NPI list through Phase 1 Process#2.10 may be added if it does not appear in the "Initial PY2017 Provider Type-NPI list", if industry believes that the NPI belongs to one of the Provider Types. Some NPIs may be left out of the "Initial PY2017 Provider Type-NPI list" because of inaccurate or incomplete taxonomic description in the NPI Registry.

The data elements that are required for a row addition or deletion are explained in Appendix I.

2. This industry feedback is due no later than Thursday 2/11/2015. Requests for deadline extensions will not be entertained.
3. AID has firmed up the definition of industry "Actors" for Phase 1. *There shall be only thread of dialog per "common ownership of networks"*. In the prior meeting the groupings were based on "Entities using the same network" and grouping on that definition was deemed as not suitable for the work needed within Phase 1. This "Common ownership" level of communication is only unique to Phase 1 of PY2017 NA regulation. The grid representing common ownership and points of contact is presented below and is based on AID's latest information. Any further corrections or updates to the grid needs to be communicated to Compliance Officer Thomas.Herndon@arkansas.gov at the earliest opportunity

Arkansas Network Adequacy Review & Regulation

Arkansas Insurance Department

Meeting Date: February 4, 2016

Entities under common ownership	Officially Designated NA SME contacts	AID's internal reference name
AETNA, Coventry	Darcey Gartner/ Katherine Therrien	ATENA
Ambetter, Arkansas Health & Wellness Solutions, Celtic Insurance Company	Bryan Meldrum/Jamie Gilmore	AMBETTER
HMO Partners, Health Advantage, USABLE Mutual Insurance Company, Arkansas BCBS	Benjamin Butler/Dan Stevens	BCBS
Connecticut General Life Insurance Company, CIGNA Health and Life Insurance Company; Federated Mutual Insurance Company; Freedom Life Insurance Company of America	Lea Anna Tonkin	CIGNA
Humana Insurance Company	Wendy Jeffries/Tosapol Kongkran	HUMANA
QualChoice Life and Health Insurance Company, QCA Health Plan	Mark Johnson/Karen Green	QUALCHOICE
United Health Care Insurance Company, United Health Care of River Valley, United Health Care Life Insurance, United Health Care of Arkansas	Raegnea Thompson	UNITED

4. Each actor can provide change feedback on "Initial PY2017 Provider Type-NPI list" ***only on the NPI's within their network for providers serving Arkansans***. In the aggregation of the NPI Lists from all carriers, AID observed that, despite asking only for Providers serving Arkansans, it got many NPI's from some issuers that are far from the bordering areas of the state, some as far as Alaska. Most of these remote providers are unlikely to be telemedicine providers. Appendix II displays NPI distribution statistics as observed by AID. This has resulted in Provider-Type_NPI-pools to be larger than they ought to be. However this will be ameliorated or addressed by the fact that

Arkansas Network Adequacy Review & Regulation

Arkansas Insurance Department

Meeting Date: February 4, 2016

- a. Industry actors can only suggest changes for the NPI's within their networks. Industry actors may therefore want their Data Analysts involved in whittling down Provider Type NPI Pools to only their Network NPIs for suggesting changes.
 - b. While preparing the NA Geo-access maps, reports and the NPI templates at the start of Phase 2, the multitude of providers far from the bordering areas of the state who do not serve Arkansans, cannot be used.
5. Actors should submit the feedback data per communications in the prior meeting. The data submission document to be used is "General Data Submission Process to RHLD" available in the web page <http://rhld.insurance.arkansas.gov/Info/Public/Templates>. The file name submitted should be in the format "<Date of submission in YYYYMMDD format>_<Carrier NAIC#>_<Carrier name>_Provider_Type_NPI_AddDelete.csv".
(For example: If BCBS were submitting this feedback data on 2/11/2016, the name recommended is "20160211_83470_BCBS_Provider_Type_NPI_AddDelete.csv". Therefore BCBS would rename the downloaded "Initial PY2017 Provider Type-NPI list" accordingly before transmitting to AID.).
6. In the course of preparation of the "Initial PY2017 Provider Type NPI List", AID observed that certain NPIs were excluded that should warrant a closer look by industry. The list of such excluded NPI is provided to industry by the name "PY2017 Flagged Exclusions for industry consideration" within <http://rhld.insurance.arkansas.gov/Default/NetworkAdequacy>. This sheet is for industry reference while providing feedback on additions and deletions using the "Initial PY2017 Provider Type NPI List". The NPIs on this sheet are associated with taxonomies in the NPI Registry that could place them in an Arkansas defined provider type. However the type ("Individual Provider" versus a "Facility") as listed in the NPI Registry does not match what is required for the defined Arkansas Provider types. For instance, Provider Type category C010: Adult/Geriatric Primary Care Providers requires the type to be "Provider" and not "Facility". So the NPIs that are listed as "Facility" are not eligible for inclusion; they are instead on this list.

This list is provided for industry to cross-reference with NPI relationship data if internally available. This is an optional step but suggested to create most accurate Provider type NPI pool possible. Unfortunately, AID may not be able to provide the NPI relationship data aggregated from industry before the addition-deletion feedback is due on February 11, 2016 for PY2017 with delayed data specifications.

Appendix I: Providing feedback on Provider-Type NPI pools

This Appendix describes pictorially how industry is expected to provide feedback on the Provider Type NPI pools. It provides an overview of the sheet, areas within the sheet where industry is expected provide feedback and finally the data elements needed either to add or remove a row.

Overview of Sheet
