Q&A (Paraphrased)
<ol style="list-style-type: none"> 1) Question: How closely does the Department follow CCIIO provider definitions? There is a gap because optometrists were not included but was available in the PTNP. Answer: AID follows the taxonomic definitions provided by CMS but not the compatibility matrix and flow charts used by CMS. If Optometrists were not a part of the CMS's definition they would not be listed in the PTNP 2) Question: Can you provide more details on the scoring system used on the NPPES and NCPDP data to get the PTNP retail pharmacy list? We need to tell our folks what to do. Answer: Details of the scoring system was avoided in the meeting because of the complexity of the details. The Department could explain the scoring system separately as a meeting artifact.
